

You are staying in a "smoke free" hospital; if you are a smoker, now it is a good time to stop.

To ensure that you receive the proper care at all times, you should not leave the unit without telling somebody.

If you feel chest pain or discomfort, do not treat yourself, lie down on the bed and use the bell to call somebody.

You can receive phone calls from outside if people use the phone number that they will give you in the nursing control.

Do not hesitate to call us if you have a problem. We are here to take care of you. Use the bell.

Ask your nurse for any information you may need, he/she will provide it to you.

## Hospital Universitario Virgen de la Victoria

## Recommendations during your stay in hospital

(Welcome to the 3B2 Unit)

UGC del Corazón

## Bienvenido/a

Welcome to the B2 Unit.

This guide is intended to provide a set of recommendations that may be useful for you.

We hope your stay with us will be as pleasant and as short as possible.

You have been admitted to a hospital unit that cares for patients in the following areas:

- Cardiology,
- Hemodynamics and
- Arrhythmia.

During your stay in our unit you will be attended at all times by a team of nurses and nursing assistants, who will be responsible for providing you with the care and information that you may need.

The supervisor of the unit nurses controls the work of the unit. If you wish to speak with her, please request a meeting during the morning shift.

Your doctor will visit you and provide information during the morning.

You will be informed in advance about any tests that need to be performed and about the preparation for them.

The hospital has several services that may be of use to you during your stay: religious services, a library for patients, interpreters, etc ... Ask your nurse for information on how to access them.

Do not keep valuables in the hospital.

If you are undergoing a test, you can leave your belongings with a relative or if this is not possible, the hospital has a safe.

Remember that the personnel cannot be held responsible for the loss of personal property while you are away from your room.

## Follow these simple rules for a comfortable stay

Use the bell whenever you need to call us, we will attend you as soon as is possible.

Please, remember that you are not the only patient. Stick to the schedule of visits and the number of visitors per patient (Up to two).

From 9:00 am to 1:00 pm, only one family member can stay with you.

The doctor will directly inform the relative accompanying the patient during the visit period.

Medical information is from 1:00 pm onwards, in the briefing room.

We will appreciate you cooperating with us in keeping your own room clean and tidy. Do not bring your own items of furniture from home, such as TV sets, chairs, etc.

Speak low, in this way shall comply with the rest of the patients. Avoid noise, everyone benefits.
